Melbourne based, onsite only

Details

Are you looking for a summer holiday job where you can help keep Australia's .au domain trusted for internet users around the globe? You'll have the opportunity to combat DNS abuse (for example phishing and malware), investigate suspicious domain name registrations, and handle compliance related audit cases to ensure .au domain names are registered according to the .au rules.

auDA has several 12-week casual Intern positions available from 1 December 2026 to 26 February 2027. We expect most interns will work 5 days a week.

Who are we?

.au Domain Administration (auDA) manages the .au domain name system (DNS), which is Australian critical infrastructure relied on by internet users in Australia and around the world. We are a not-for-profit endorsed by the Commonwealth Government.

Our purpose is *Connecting Australians to an open internet with trust and confidence*.

We support the needs of Australian internet users by:

- Delivering a stable, secure and reliable .au DNS
- Implementing .au policy rules that are transparent, responsive and efficient
- Investing in the Australian internet ecosystem to improve the utility of the .au domain.

Watch our video series [auDA explained – auDA CEO Bruce Tonkin](#) to learn more about auDA and our work.

The role:

We are looking for engaged and curious students from diverse academic disciplines to join us for 12 weeks and help us make a difference by reducing DNS abuse and enhancing the integrity of .au domain name registrations. Some relevant disciplines might include IT, cyber, law, data, consumer rights, business, and many other disciplines.

Successful applicants will work from our office located on Exhibition Street in the Melbourne CBD.

We will provide training and support for our interns to be successful in this role.

Why us?

At auDA, you'll have the opportunity to gain hands-on experience working for Australia's country code top-level domain (ccTLD) administrator and contribute to work that helps support a safer and more trusted internet. You'll work alongside experienced professionals, build practical skills, and gain valuable insight into Australia's digital ecosystem. You'll also be part of a welcoming and collaborative culture, with opportunities to connect with colleagues across the organisation and join team celebrations, including our end-of-year staff event.

auDA is committed to reconciliation, and our [Reconciliation Action Plan](#) sets out our work to develop stronger relationships for meaningful engagement with Aboriginal and Torres Strait Islander peoples grounded in collaboration, respect and understanding. Aboriginal and Torres Strait Islander candidates and candidates from other diverse backgrounds are encouraged to apply.

Apply now!

Register your interest by 11.59pm, Friday 30 October 2026 by filling in the form via the link below. We would love to hear from you!
