Subject: [EXTERNAL] - Submission for .au Licensing Rules Review
Date: Monday, 6 July 2026 8:54:07 PM

Dear Sir/Madam

With regard to eligibility criteria for .au domains, while I agree that initial eligibility should be from a business, but that should be relaxed to individuals at some point in time.

My real-life example is "Mum & Dad" owns a business all their life, they get a .au domain name for the business, which comes with an email address they use their whole working life. When they retire and close the business down, they should be able to maintain the .au domain name, without needing to maintain a business structure for auDA eligibility.

Thank you for taking the time to consider this submission.

Please don't hesitate to reach out, should you require any more information or clarification.

Regards

Karl Williams
