

auDA PUBLISHED POLICY

Policy Title: RESERVED LIST POLICY

Policy No: 2014-03

Publication Date: 02/05/2014

Status: Current

1. BACKGROUND

- 1.1 This document sets out auDA's policy for maintaining the Reserved List of names that may not be used as domain names in the open .au second level domains (2LDs). At the time of publication, the open 2LDs are asn.au, com.au, id.au, net.au and org.au.
- 1.2 The Reserved List is held in the registry database. Each application for a domain name is checked against the Reserved List and domain names that exactly match a name on the Reserved List are blocked from registration.

2. CONTENTS OF RESERVED LIST

- 2.1 The Reserved List contains the following:
 - a) words and phrases that are restricted under Commonwealth legislation;
 - b) names and abbreviations of Australian states and territories and the name "Australia"; and
 - c) names that may pose a risk to the operational stability and utility of the .au domain.

3. WORDS AND PHRASES THAT ARE RESTRICTED UNDER COMMONWEALTH LEGISLATION

- 3.1 The table in Schedule A lists words and phrases that are restricted under Commonwealth legislation, and the consent required for their use. It is the responsibility of the registrant to ensure they have obtained the requisite consent prior to registering a domain name that contains a word or phrase listed in Schedule A. Where auDA becomes aware that a registrant does not have the requisite consent, auDA reserves the right to revoke the domain name licence and delete the domain name.
- 3.2 auDA may conduct audits of the registry database at the request of a relevant government agency, to ensure that any domain names that contain words and phrases listed in Schedule A have the requisite consent.

4. NAMES AND ABBREVIATIONS OF AUSTRALIAN STATES AND TERRITORIES

- 4.1 The names and abbreviations of Australian states and territories and the name "Australia" are regarded as names of national significance and as such are reserved from general use.
- 4.2 The name or abbreviation of an Australian state or territory may be released on application provided that the proposed registrant:
 - a) is eligible to use the name or abbreviation under the relevant eligibility and allocation policy rules; and

- b) has written authorisation to use the name or abbreviation from the relevant state or territory government.
- 4.3 An applicant for a name or abbreviation of an Australian state or territory must lodge their application through an auDA accredited registrar. If the application is approved, auDA will authorise the release of the name or abbreviation from the Reserved List.

5. NAMES THAT MAY POSE A RISK TO THE OPERATIONAL STABILITY AND UTILITY OF THE .AU DOMAIN

- 5.1 From time to time, auDA may place a name on the Reserved List that, if used as a domain name, may pose a risk to the operational stability and utility of the .au domain.
- 5.2 The decision to place a name on the Reserved List under paragraph 5.1 must be approved or ratified by the auDA Board.
